## Elementary Coding: Sheet – 01 PIPTP (Post Immersion Practice Only Training Program)

## Section A

**Objective:** Use of division / and modulo % operators, and introduction to counting even/odd using conditional logic.

Sr.	Question Title	Mettl Practice Link
1	Is Even?	<u>Link</u>
2	ls Odd?	<u>Link</u>
3	Return Last Digit of the Given Number	<u>Link</u>
4	Return Second Last Digit of the Given Number	<u>Link</u>
5	Sum of Last Digits of Two Given Numbers	<u>Link</u>
6	Is N an Exact Multiple of M?	<u>Link</u>
7	Of Given 5 Numbers, How Many Are Even?	<u>Link</u>
8	Of Given 5 Numbers, How Many Are Odd?	<u>Link</u>
9	Of 5 Numbers, Count How Many Are Even or Odd	<u>Link</u>

## Section B

**Objective:** Practice number theory (primes, factorial, Fibonacci), digit sum logic, and counting using loops.

Sr.	Question Title	Mettl Practice Link
1	Is Prime?	<u>Link</u>
2	Factorial of a Number	<u>Link</u>
3	Nth Fibonacci Number	<u>Link</u>
4	Nth Prime Number	<u>Link</u>
5	Number of Primes in a Specified Range	<u>Link</u>
6	Count of All Digits in a Number	<u>Link</u>
7	Count of Unique Digits in a Number	<u>Link</u>
8	Count of Non-Repeated Digits in a Number	<u>Link</u>
9	digitSum: Sum of All Digits in a Number	<u>Link</u>
10	digitSum Even: Sum of Even Digits Only	<u>Link</u>
11	digitSum Odd: Sum of Odd Digits Only	<u>Link</u>
12	digitSum Opt: Sum of Even or Odd Digits	<u>Link</u>
